

MAKING PAPER LANTERNS

Downloadable PDF available at: www.centipededragon.weebly.com/crafts

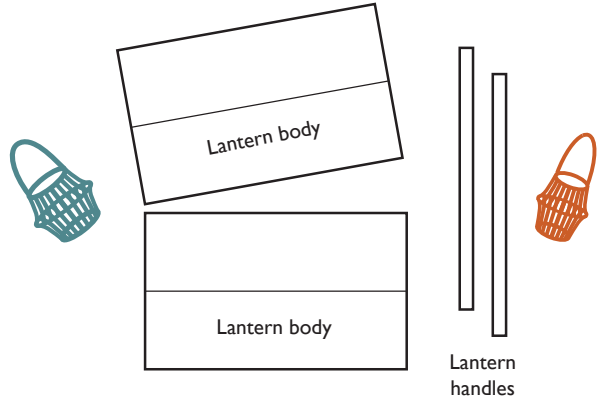

1. Starting with an 8.5"x11" piece of paper, cut two equal strips off the short end.

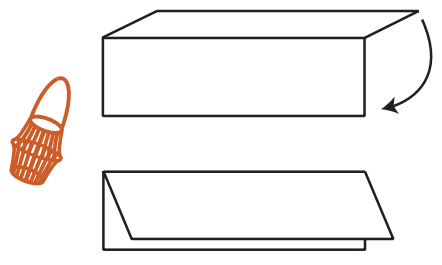

2. With remaining sheet, cut in half.

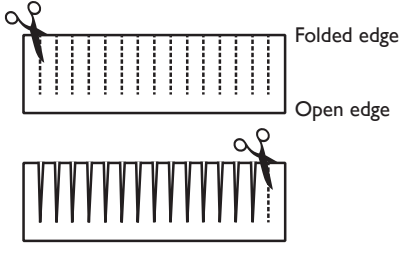

3. There are now 2 lantern bodies and two handles.

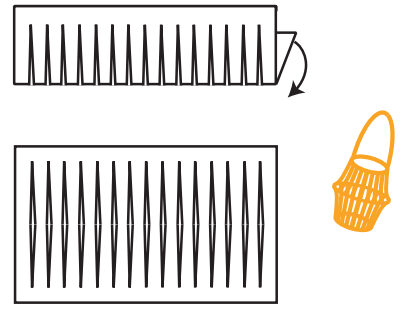

4. Fold rectangle in half length-wise.

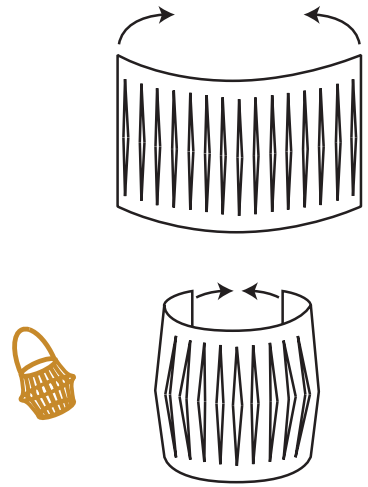

5. Cut perpendicular slits into the folded edge of the lantern body. DO NOT cut all the way to the open-ended edge.

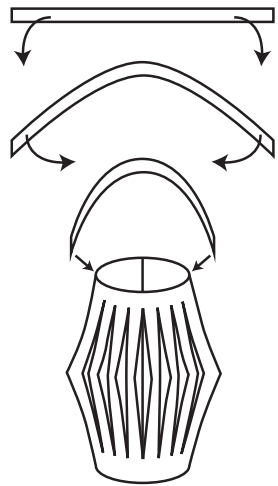

6. Unfold paper.

7. Coil the lantern body to form a tube. Tep together the edges.

8. Attach each end of the lantern handle strip to top edge of tube.

6. Variations on lantern.
